Improved Simantics/SCL module SCL module/script functionality

- Added new functions create{SCLModule,SCLScript,PGraph}R that return the created resource instead of returning ().
- Added new functions createSCL{Module,Script}WithDefinition for directly creating modules/scripts with a specific definition
- Added new functions set{SCLModule,SCLScript,PGraph}Definition for setting the definition specific to each entity.
- Added preliminary documentation for the module
- Deprecated create{SCLModule,SCLScript,PGraph} functions in favor of create...R
